

## Welcome to the latest edition of the Springfield Messenger, aiming to keep our neighbours updated on what is happening at Springfield Hospital, as part of the Trust's Estate Modernisation Programme.

We are continuing the delivery of our Estate Modernisation Programme and hopefully you will have seen the significant amount of enabling works that has been undertaken at our Springfield site. I am also incredibly excited about the recent plans submitted by STEP for the new care home.

The Trust also continues to proceed through the Government approval process for the scheme. As part of our ongoing commitment to engaging with the local community, we will be holding dedicated public consultation events for the next phase of homes at the Springfield site, providing residents with the opportunity to view the plans and to submit feedback. More details on the venues and times of these events will be provided in due course.

For more information on our services, the care we provide and the latest news on the Estate Modernisation Programme, please visit our website or contact us using the details in this newsletter.

**David Bradley**  
Chief Executive

## Plans submitted for care home

In February's Messenger, we reported that our development partner STEP was preparing to submit a planning application to deliver a new care home on site. We are pleased to announce that an application has now been submitted to Wandsworth Council, who are now carrying out their statutory consultation.

The submitted plans include a 64 bed care home and two floors of close care apartments and will be operated by Brendoncare.

You can view and comment on the application at [www.wandsworth.gov.uk/planningandbuildingcontrol](http://www.wandsworth.gov.uk/planningandbuildingcontrol) with the application reference number 2019/2496. You can also email Wandsworth's Council planning department via [planning@wandsworth.gov.uk](mailto:planning@wandsworth.gov.uk), quoting the application reference number.

## Join us at our Annual Making Life Better Together BBQ

We are pleased to invite you to our Annual Making Life Better Together BBQ which will take place on Wednesday 3rd July 2019, 12:00-16:00.

The event will take place on the green outside the main building 14 (by the fountain) at Springfield Hospital, 61 Glenburnie Road, SW17 7DJ. There will be information stalls and food available.

The exercise therapy team will also be running their Staff and Patients 1.5K, 3K or 5K fun run around the Springfield site starting 11am. This was a success last year with approximately 50 staff and patients so we are hoping to top that this year.

There is no need to RSVP, so come along and bring your friends and family!

## Chief Executive David Bradley to take on new role after seven years at The Trust

David Bradley announced in April that he is to take on the Chief Executive role at South London and Maudsley Mental Health Trust after seven successful years at the helm of the Trust.

David has over 20 years' experience working within the NHS and social care. His driving ambition is to continue to improve patient care and ensure that people who need mental health services can access the very best care and treatment possible.

Prior to joining South West London and St George's Mental Health NHS Trust as Chief Executive in 2012 David was Chief Operating Officer for Oxford Health NHS Foundation Trust where he built a reputation for using innovation to drive quality and service transformation. David will stay on as Chief Executive at South West London and St. George's Mental Health NHS Trust until the summer and the search for his successor has started.

Works progressing on site - June 2019

### Upcoming works:

The works over the coming months include:

- Ongoing works to create a dedicated construction access road from Burntwood Lane.
- Preliminary works to create Springfield Drive, the new road which will link the existing access points from Glenburnie Road and Burntwood Lane.
- Construction and installation of site drainage facilities and associated services installations.
- Building demolition.
- Tree planting.
- Plot preparation for house builders.

### Working hours

The consented working hours are:

**Monday-Friday: 08:00-18:00**

**Saturday-Sunday: No works**

Outside of these hours, there may be personnel on site but their activities will be restricted to ensure there is no disruption to the local community.

Please also note that these working hours may change, subject to prior agreement with Wandsworth Council and we will ensure residents are notified in advance of any changes to working hours.

### Any questions about construction?

If you have any questions on upcoming works or any suggestions on how we can improve how we work, please let us know of any comments you may have by contacting:

### Wandsworth Learning Disability Services now provided by South West London and St George's Mental Health NHS Trust

Beginning in April, specialist health services for people with a learning disability in Wandsworth are now provided by South West London and St George's Mental Health Trust.

The Wandsworth Learning Disabilities Healthcare service, which is currently provided by St George's University Hospital NHS Foundation Trust, has integrated with the Wandsworth Mental Health Learning Disability service, which is currently provided by South West London and St George's Mental Health NHS Trust, this provides an opportunity for the two services to work closely together to provide a holistic learning disabilities service, catering for both the physical and mental health needs of people with learning disabilities.

### Preserving Springfield's History

The Trust has been working with Summerstown182, a local award-winning community history project based in Tooting, to showcase and capture images of our historic Springfield site prior to beginning our redevelopment of the estate later this year to deliver two new mental health hospitals.

In May, the Trust welcomed a group of enthusiastic local historians and community members onto the site and undertook a tour of our derelict buildings in the Orchid Block and old Phoenix wards. The tour covered mental health in the initial early years of the Trust stemming back to the 1850s before ending with our last closed ward in the early 2000s.

The Trust is keen to ensure the history of the site is kept during the transformation and an artefact room will be delivered as part of the ongoing redevelopment of the site.
